I wish to say a word to the Gentlemen and Ladies of Bangor and vicinity. As parents you would do more for your children than for yourselves. A gentleman in Bangor, who is fifty years old, was in my office in April and said that he would give me one hundred dollars if I would save one tooth in his mouth without extracting it. But he was too late. If a man will thus value one tooth, what should he offer for his children.
Now if you cannot save your own, you can save the teeth of your children. Almost every day some father or mother will come to the office with some child to have me extract some aching tooth. I assume the month said that the painful tooth was a temporary but a permanent one. The parent is surprised; you are wrong, she has never had but one tooth there, she will certainly have a permanent tooth when that one is out of the way.
A very large proportion of our patrons, have never, as we, or have forgotten, that in our first set we are but twenty teeth. And that all teeth that grow out of the twenty are permanent teeth. Children of six, seven and eight years old, have extracted their first molar teeth for comfortable get up to sixteen or eleven years old. Will you parents suffer your children to suffer for their life time by your neglect? If you neglect you have lost your last and faith, a good office for will tell you where to go for the best artificial teeth. Hundreds of people in Bangor and vicinity are but recently

The N Y Evening Post comments upon the recent railroad slaughter near Newark as follows

It might be understood that for a misplaced switch there is absolutely no excuse If the switchman was not at his place, or neglected his duty he ought to be hanged as promptly as the facts of his neglect can be proved before a court. Indeed if the courts do not act more promptly and vigorously in the case of such crimes as this, the people will before very long take justice into their own hands

If on the other hand the manager of a railroad has appointed an untrustworthy or incompetent person to attend a switch, or has left the place in any other way improperly filled, then he is the criminal, upon his head rests the murder which, in that case, he has caused, and he ought to be punished for it.

A jury will of course investigate this last railroad murder, and it may, like many other juries before, pronounce that Nobody was to blame But the public will not be satisfied with such a verdict, and we trust that in this case stern and prompt justice may be done

The Washington Patriot commences a column leader on "The Administration," with this beautiful conception "If a patient marked with eruptive disease were to wrap himself in a fine-string garment, or draw a gauze veil around his blackness, it would not be more ludicrous and preposterous than for this Administration to delude itself by imagining that the fingers of the Anglican diplomacy conceals its general imbecility and wrong-doing."

It is not to be expected that agriculturists like Horace Greeley and the Maine Farmer should be perfectly orthodox in their politics, and when the latter lumps the Republican and Democratic platforms together with the remark that "they neither are nor are designed to be frank statements of principles or intentions," we understand that it is simply indulging in some very loose generalization upon a subject to which it has not given the attention bestowed upon its specialties of mammoth squashes subsoil ploughing, etc The Portland Advertiser, however, devotes considerable attention to political matters, and when it exposes the careless assertions of others, may justly be held responsible Ir. the Farmer's article on the platforms, the Republican resolution on the tariff is referred to as particularly deserving of the charge of insincerity and intentional vagueness and this charge is actually endorsed by the Advertiser in copying the Farmer's strictures without dissent.

How low easy it is for captiousness to lead to inconsistency we copy the following sentence from an editorial in the Advertiser of May 17 recommending that our Republican platform should demand:—

Not a free trade protection nor free trade but an intelligent revision of the tariff for the greatest good of the greatest number."

And the following extract from the Republican platform in which the Advertiser now loses over the "finger-marks of the politician"

Resolved that in assessing the duties care should be taken to so adjust them as not to prejudice, but to promote, the interests of every section and branch of industry in the land, special pains being taken to foster in every practicable way the honor and interests of the American laborer

Our contemporary finds a strange difference between the "tweedle-dum" of May 17th and the "tweedle-dee" of the 29th of June.

THE ORANGE CATHOLIC QUARREL IN NEW YORK—THE ORANGEMEN'S PARADE FORBIDDEN Much surprise and very deep feeling is felt in all circles in New York city at the order of Superintendent Kelso forbidding the parade and picnic of the Orangemen on Wednesday The citizens generally regard it as a surrender to the mob The Orangemen are sullen and dissatisfied, while their enemies feel that they are already masters of the situation The few outside of the police force to whom the proclamation and the policy it embodies became known Monday night, were almost unanimous in denouncing it as a cowardly surrender, and it was confidently anticipated that public opinion would strongly disapprove of this concession to the lawless threats of men who are condemned alike by their religious teachers and their intelligent political leaders It appears that the Mayor, Superintendent Kelso, Major General Shaler and others in authority, were in consultation during Monday and the final result of their deliberations was embodied in the order issued On the 6th instant Mayor Hall addressed a letter to the Grand Master of the Orange Lodges in that city embodying the statements subsequently incorporated in the order of Chief Kelso, and suggesting that the Grand Master would interfere to dispense with the parade As no reply was received to this letter and the indications of a riotous assault on Orangemen demonstration grew more and more threatening the Mayor finally determined to prohibit the parade by other means There is no doubt that the Orangemen of Jersey City are determined to parade, and the greatest alarm exists in consequence among the citizens, who are apprehensive for the safety of their persons and property The Hibernians make no secret of their determination to attack the Orangemen in case the latter shou l parade Then preparations for the expected fray are said to be very complete Notwithstanding the order of the Superintendent of Police in New York city, trouble is considered imminent, and extraordinary precautions are being taken to quell any disturbance that may arise Judge Hilton, representing the Park Commissioners issued an order on Monday forenoon, directed to the foreman of all the gangs of laborers employed by the Commissioners, instructing them not to excuse any workmen from labor on Wednesday unless reasonable cause could be shown Any workman absent Wednesday will be immediately dismissed, unless he presents an excuse satisfactory to the Commissioners

The prohibition of the proposed parade was the general topic of conversation throughout the city on Tuesday, and in numerous workshops and at street corners knots of people were absorbed in the all absorbing theme Private instructions accompanying the general order issued by Superintendent Kelso are said to be very explicit and to enjoin not only the utmost coolness and forbearance on the part of the police, but the arrest of all parties engaging in lodges and halls to form processions It is feared that trouble may yet occur and the whole of the National Guard is to be in readiness for an emergency In addition to these precautions, any distribution of arms will entail arrest on the parties participating in it and any found with muskets will be arrested The whole police force is ordered to be in readiness on Wednesday morning, and preparations have been made to swear in a large number of special constables Inquiries have been instituted by inspectors in regard to the number of policemen in each precinct armed with revolvers, and over four hundred navy revolvers have been distributed to those having none

In Brooklyn precautionary measures have been taken for preserving the public peace—On Tuesday morning a meeting was held in the Mayor's office at which it was resolved to have the Brooklyn militia in readiness, prepared for any emergency Besides these the whole of the police force is to be on duty and so distributed as to be easily concentrated should the occasion require

The order of Superintendent Kelso issued Monday evening forbids both the Orange procession and the target excursion of the ancient order of Hibernia, comprising large companies who represent that portion of the Irish Catholic element which expresses its determination to oppose the Orange display The Superintendent says that he has been applied to by the Grand Master of the Orange lodges in the United States to give public support to the celebration by a procession through the principal streets and avenues of New York on the 12th instant, in honor of the battle of Boyne and the surrender which was its consequence "These several commemorative victories on the soil of Ireland by one English king over another, two centuries ago, engendered national differences which has descended from each generation with increasing acrimony, and large bodies of citizens participating in these feelings form part of our community" The New York authorities have said "only discovered that the surrender of the thoroughfares to large organized bodies of men necessarily interferes with the individual rights of other citizens, and those thus engaged are, in the language of the law, permissible trespassers. This order concludes by instructing the police to disperse all bodies of men collecting on Wednesday for the purpose of joining in target excursions and processions

FOR OHIO HURRICANE Reports from Dayton giving additional particulars of the recent storm, state that it was hardly less destructive in the country than in the city The storm came from the Northwest. It wrested the trees as if they were pipe stems and did immense damage to fruit trees, growing crops, corn, and timber A few miles Southeast of Dayton the trees fell across a farm house crushing it and killing two of the inmates. Serious accounts are given of the injury done in the country It is impossible to more than conjecture the aggregate loss. Some persons place the loss in the city and country at a little less than a million of dollars, but this is probably an exaggeration. At Greenville several buildings were struck by lightning and four or five persons were injured.

A complimentary reception was given in New York on Wednesday to Hon. Geo. W. Morey, State Treasurer of Maine, by the officers of the Lincoln Bank [illegible] of this city, Geo. W. Hope, Esq, presiding.

POLITICAL AND PERSONAL.

Ex-Internal Revenue Commissioner Williams will leave Washington in a few days for Oregon

The specie shipment from New York Tuesday was about $600,000.

The Russian Minister M De Kusseleff and attaches of the Legation have arrived at Rome from Florence

Senator Spencer of Alabama is in Washington, looking after the interests of his political friends in that State

The Memphis Appeal claims that two thirds of the newspapers in Western Tennessee are joined with it in deadly opposition to the New Departure

Gen Howard, fighting his first battle at Manassas in 1861, and delivering a Fourth of July oration on the same spot in 1871, shows some of the changes ten years have wrought

General Horace Binney Sargent, in his Fourth of July oration in Boston, said that all the citizens of the United States should be compelled to vote for the same reason that they were compelled to perform military service during the war

The editor of the Concord Monitor, who has just returned from California, says "From what we saw and heard while on our recent trip through the State, we believe the chances of the coming election decidedly in favor of the Republicans.

The N Y Tribune frankly says of President Grant "We cannot believe that any administration in the history of the country has been conducted with such direct reference to the popular wishes,—has been in fact (in the non partisan sense of the word) so truly democratic."

Postmaster General Cresswell, who has just returned from Maryland, reports a good deal of dissatisfaction among the Democrats of that State, and that many conservatives denounce the party in power as corrupt and profligate, especially in the matter of finance He does not think it will be long before Maryland will wheel into Republican line.

The fact that the terms of twenty four United States Senators expire a year from next March lends considerable interest to the elections of the present fall, inasmuch as in eight of the States, viz: Kentucky, California, Ohio, Pennsylvania, Iowa, Maryland, Wisconsin and Vermont the Legislatures chosen will be elected with reference to the selection of Senators

Senator Harlan in a letter to the editor of The Davenport Gazette, substantially denies the validity of the letters recently published purporting to have been written by the Rev. J P Newman, pastor of the Metropolitan Methodist Church at Washington City, urging the Methodist clergy of Iowa to interest themselves to secure the re election of Mr Harlan to the United States Senate

Gov Hoffman, in his Fourth of July letter, has a great deal to say about Jefferson, but it has been suggested that he overlooks what Jefferson wrote in reference to his Louisiana purchase, as follows. *"The less this is said about the Constitution of difficulty the better.* Congress should do what is necessary in silence I find but one clause in it so *shutting up the Constitution for some time"*

BOWDOIN COMMENCEMENT.

BRUNSWICK, Me., July 11.

Exercises of Commencement week at Bowdoin commenced last night, with a declamation by the Junior class, the audience at which was very large. Twelve boys declaimed, the first prize of $20 was awarded to Marcellus Coggan and the prize, $10, to Harold Wilder.

This afternoon Rev. E. P. Parker of Hartford, Ct., delivered the annual address before the Alumni. In the evening there was a concert by the Germania Band of Boston, assisted by Miss Annie Louise Cary.

The fourth annual College regatta on the Androscoggin river this forenoon, was witnessed by an immense crowd of people. The four-oared race (class race)—distance three miles—was won by the Sophomore boat with the following crew:—A. L. Crocker, (stroke); A. G. Ladd, J. F. Elliot, A. J. Boardman (bow). For the wherry race, 1 stance one mile, the entries were: H. M. Heach, "Mephistopheles"; N. D. Clark, "Gil Blas"; E. D. Freeman, "Don Quixote." Clark won this race as also the tub-race of 100 yards, which caused a great deal of amusement among the lookers on.

To-morrow, Wednesday, the exercises of the graduating class take place. There are but 16 graduates, this year, a smaller number than that of any class since 1852. The Board of Trustees met yesterday, but their action relative to a successor to President Harris has not yet transpired. The Board of Overseers met to-day.

FRANCE.

London, 11.—There is a struggle among Americans in Paris to secure possession of Communist prisoners as colonists. Some want them for Colorado and others for Lower California and Arizona. The government is puzzled to decide.

OVERHAULING PALIKAO AND BENEDETTI.

A commission of inquiry has been appointed by the Assembly to examine into the course pursued by Count Palikao while at the head of the government of national defence, and into the conduct of Benedetti, French minister at the Prussian Court, prior to the German war.

THE NATIONAL GUARD.

A bill dissolving all battalions of the National Guard throughout France is about to be introduced in the Assembly.

GREAT BRITAIN.

DOUBLE SHIPWRECKS.

London, 11.—The ship Madagascar from London bound to Quebec, was in collision a day or two since with the steamer Wilgeon in a heavy fog in the British Channel off the Eddystone light. Both vessels sustained such injuries that they sunk in shoal tide. The crews took the boats, and the sea being smooth reached the land in safety.

THE ENGLISH BOAT CREW

The names of the crew are James Prothero, stroke; Thos. Perry, John Bright and Robert Chambers.

THE GRANGEMEN.

JERSEY CITY ALARMED.

New York, July 11

The Orangemen of Jersey City are fully resolved to parade to-morrow. They have quietly organized and prepared for this turnout and will do all they can to preserve peace and order. The Hibernians are also firmly determined to oppose them. A number of lodges of Orangemen who were to have participated in New York, intend to join Jersey City process on. The Police Commissioners have taken the necessary steps to prevent a riot and the militia have been ordered to hold themselves in readiness to preserve order.

GOVERNOR RANDOLPH WILL PROTECT THE RIGHT OF ASSEMBLAGE.

In view of this state of affairs Governor Randolph has to-day issued a proclamation in which—while denouncing the expediency of the proposed parade—he says that "the Constitution of this State of New Jersey enumerates among other rights and privileges that the people have a right to freely assemble together. It also proclaims that no person shall be denied the enjoyment of any civil rights on account of his religious principles." And he commands all legally constituted authorities of this State to fully protect all peaceful assemblages of our inhabitants, using every means at their command to enforce this proclamation, assuring all such properly constituted authorities that in the event of insufficiency of ordinary local power, then the entire power of the State, will, if necessary, be called into exercise, to compel at any cost the respect for and obedience to the laws.

EXCITEMENT IN NEWARK.

Rumors being current that the Orangemen intend to extend their picnic to Newark, the authorities are making arrangements to preserve the peace at all hazards and protect the rights of citizens. General Plume has promptly notified the military under his command to be in readiness.

TROUBLE STILL FEARED IN NEW YORK—FORMIDABLE PREPARATIONS.

The police are still confident that the Orange parade will take place to-morrow and a force of reserves will assemble at the Central office at 9 o'clock A. M., and will upon the first notice of the outbreak, be transferred by stages to the scene of the disturbance. The ordinance and sanitary police and the detective force will be used as a reserve force. The available force will not exceed 1100 men. Every man will carry a revolver and a supply of other arms was received at headquarters to-day. Captain Wilson's mounted police of over 100 men will be on duty for any emergency with revolvers and sabres. The whole disciplinal force of the police department have been ordered on duty at 6 o'clock A. M., to-morrow.

A SENSATION BEFORE.

It is understood in police circles, that the burglars and highwaymen of the city have formed a combination to make simultaneous raids on the jewelry and chief dry goods stores during the concentration of the police at the place of the riot.

THE THIEVES GATHERING.

Information has been received that a large number of thieves are flocking to this city from other cities, in hopes of obtaining plunder if a riot occurs.

THE MILITIA expecting riot.

Shortly after noon to-day, Gen. Shaler issued orders to a number of regiments ordering them to rendezvous to-morrow at their respective armories. Gen. Dakin of Cavalry Brigade has ordered the 18th, regiment to assemble at their headquarters in Brooklyn to-morrow morning, fully uniformed, armed and equipped for active duty in aid of the civil authorities.

THE ACTION OF THE AUTHORITIES CONDEMNED BY THE MERCHANTS.

A Committee was appointed at a meeting at the Produce Exchange this afternoon, to draft resolutions condemnatory of the action of Supt. Kelso. They will be submitted to another meeting to be held to-morrow.

All the Infantry regiments of the first divisions of the national guard, the first and third regiments, a Cavalry squadron, the Washington greys and the first regiment of artillery, have been ordered to assemble at their armories to-morrow at 7 o'clock. One hundred men of the 5th regiment are on duty tonight in their armory on Hester St, near moth three streets from Hibernian Hall.

The World of the 12th will publish the following:

The following Proclamation has just been issued by John T. Hoffman, Governor:

PROCLAMATION.

Having been only this day apprised, while at the Capitol, of the actual condition of things here with reference to the proposed processions to-morrow, and having in belief that my presence was needed, repaired hither immediately, I do issue this proclamation:

The order heretofore issued by the authorities in reference to the said processions, having been duly revoked, I hereby give notice that any and all bodies of men desiring to assemble and march in a procession in this city on the 12th inst, will be permitted to do so; they will be protected to the fullest extent possible by the military and police authorities. A military and police escort will be furnished to any body of men desiring it, on application to me at my headquarters in this city, at any time during the day. I warn all persons to abstain from interference with any such assemblage or procession, except by authority from me, and I give notice that all the powers at my command, civil and military, will be used to preserve the public peace and to put down at all hazards every attempt at a disturbance, and I call upon all citizens to unite with me and the local authorities in this determination to preserve the peace and honor of the State.

(Signed) JOHN T. HOFFMAN.

The locomotive on the Vermont Central road was decorated with the American and English flags and bore on a white banner this device: "Don't care what the grade is where my and is, the editors and the ladies." As the train of ten elegant cars left the St. Albans depot, the party received a startling farewell salute by the explosion of a large number of torpedoes laid along the track. The Montreal Mercantile Library Association have tendered the party the use of their fine rooms and the Lord Mayor will give them a grand reception at his residence on Wednesday. The fire brigade of the city will also be called out by a false alarm, for exhibition to the visitors. HORRIBLE TRAGEDY.

WILMINGTON, N. C., July 11.

A fearful butchery was perpetrated in Robeson county yesterday afternoon by Henry Berry Lowry and a band of negroes. A Sheriff's posse, having in charge Lowry's wife and several other prisoners who had been aiding and abetting the negroes, was ambuscaded near Hug's store, on the Wilmington, Charlotte & Rutherford Railroad, when Lowry's band attacked them. The following of the Sheriff's posse were killed and wounded:—Killed—Hector McMellan, Archibal Bowen and Hector McNeill; wounded, D. McCorick, H. Barnes and James Lowry—the latter a colored man and cousin to Lowry, but cooperating with the Sheriff's posse. The fight resolved itself into a regular battle which lasted for some time. The Sheriff's posse killed the negroes into the recesses of the swamp, but it was not certain that any of the outlaws were killed. Lowry, the leader of the band, and Capt. T. M. Wishart had a regular duel on the railroad track, each loading and firing deliberately, five or six times, but neither wounded. The whole county of Robeson is aroused, and it is believed that a campaign will now be inaugurated that will result in the extermination of the band. A committee of citizens of Robeson county came to this city to-day to secure arms and ammunition. The members of the Lowry band are all negroes.

BY BRET HARTE

(Concluded)

[illegible]

"As a man he had all its borne a fair reputation" began Mr McCorkle, slowly "I should like, if so be as I could Mister Editor, to make a correction in the columns of your valuable paper"

"Mr Editor begs I him to proceed

"As my wife I discern under that about a month ago I fetched home to whatever is we will call a young man whose name might be as it were Milton—Milton McCorkle"

Mr Editor remarked perfectly

"This same party I knowed further nor I've seen two on him camping out together Not that I'd known him all the time so far he was a kind of strange at spells, and had odd ways that I'd warn'ed to allow I'd may remember that I said he was a bright odd gal"

The editor distinctly did

"I pitched this same party up in St Joe to be a nurse to his sister and mother, which they were a kind of sickly and I'm bound to say he was a good nurse, for I'm bound to say I hadn't been away from home—for I'm a married man Mr Editor, and hev children of my own—until the music bills he was a born poet"

"Well"

"Poetic statements in this your letter, it seems, I low I was wrong"

THE

NEW YORK & NEW ORLEANS

RAILROAD COMPANY

Are building a trunk line, connecting New Orleans with Mobile on the east, and giving

THE ONLY RAILROAD CONNECTION

between the former city and the great and most productive State of Texas on the west, the total distance from Mobile to Houston being 478 miles

The company (sponsored of strong Northern capitalists who have already expended nearly TEN MILLION DOLLARS of their own funds in the construction of the line) They invite bids about 25 miles from Mobile westward, and received typical chase of securities and made proposals for the entire road, repeated subpoenas of the line like combining the Texas division being 1 hundred miles to be built

To Complete the Entire Road

It is believed that no other railroad enterprise in the country has ever made such pledge of expenditure from its own means before offering any of its securities to the public

The company now offer for sale the

Eight Per cent Mortgage Bonds

upon the Louisiana division of 256 miles from New Orleans to the Sabine River. This will probably be the most valuable portion of the whole line, as it will be the only rail communication by which the enormous productions of Texas can reach the Southern cotton mills.

So important is this road considered to Louisiana, that the State has made very liberal grants in aid of its enterprise, by free donations, by endorsement of its bonds, and by subscriptions to the stock of the Company, amounting in all to one eighth million dollars

The Bonds now offered are of two classes:

FIRST MORTGAGE BONDS

to the amount of $42,500 per mile, and

SECOND MORTGAGE BONDS

to an equal amount, both principal and interest guaranteed by the State of Louisiana. The price of the two classes is the same, and subscribers can take their choice

The Bonds are only in the denominations of $1,000, or $500 each, interest payable January and July, at the rate of eight per cent, currency in New York, or seven per cent gold in London, at the option of the holder, at the same which coupon of the Bonds can be registered, if desired

NO BETTER SECURITY HAS BEEN OFFERED

to investors The Bonds are largely protected as well as entirely safe One thousand dollars invested in these eight per cent bonds will give the purchaser *more than seventy in greater cent* greater annual interest than the same amount invested in the new Government Five Twenties

At the same price, at 8 per cent currency long bond is far cheaper than a 7 per cent gold one Calculating a return to specie payments in three years, and taking time for the bonds of the New Orleans, Mobile and Texas Railroad have to run—6 years—we find that by comparing the interest of each, every six months at 8 per cent in 8 per cent currency bond a 6% will give a return of $2 514 16 MORE than a 7 per cent gold bond, at the same price, or nearly three times the amount of the original investment

These Bonds are kept for the present at 90 and accrued interest at 8 per cent currency from July 1 to date of remittance
